# Éléments de relief

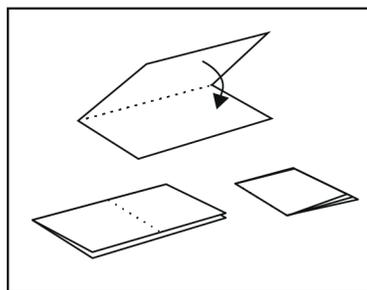

# Étapes de réalisation

1

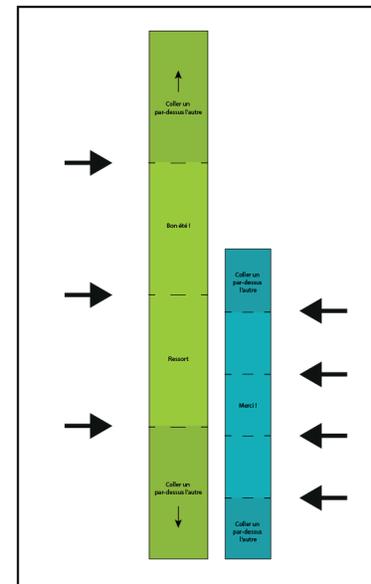

Découper les différentes formes.

2

Plier une feuille en deux et en deux à nouveau. Ta carte sera plus rigide.

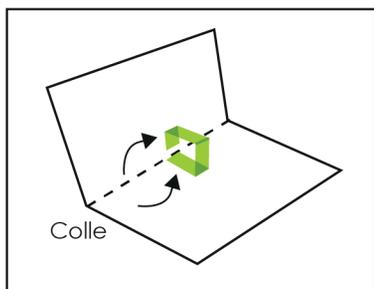

3

Plier les bandelettes aux endroits indiqués.

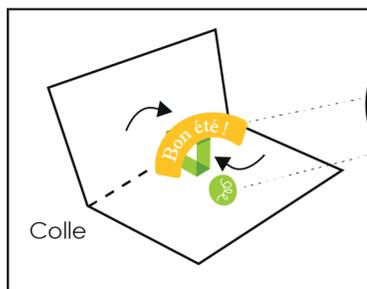

4

Intérieur

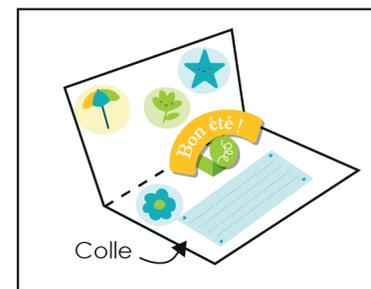

Sur la feuille, coller la bandelette la plus longue à l'intérieur de la carte de façon à pouvoir l'ouvrir et la fermer sans difficulté.

5

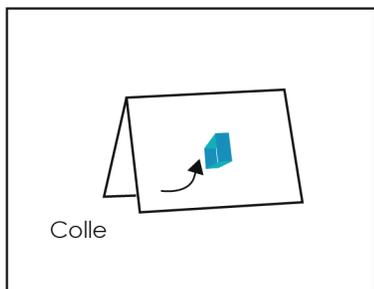

Coller les éléments sur la bandelette pour faire du relief.

6

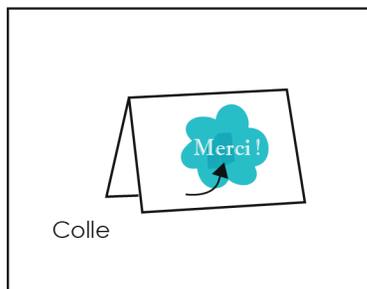

Ajouter les autres formes pour décorer la carte comme tu le souhaites. Il ne reste plus qu'à écrire un petit mot et à l'offrir à ton/ta professeur(e), à ton éducateur/trice ou à ton ami(e) !

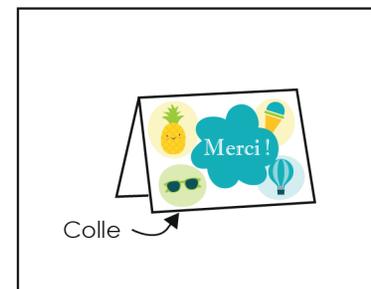

Dessus

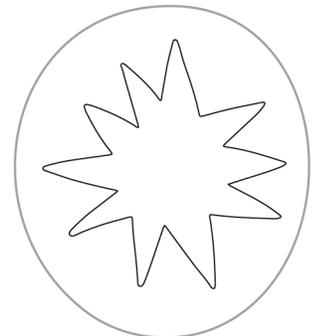

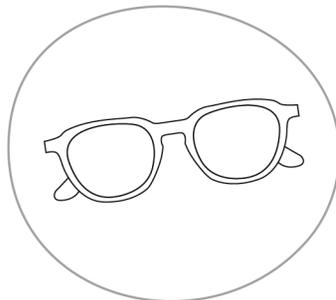

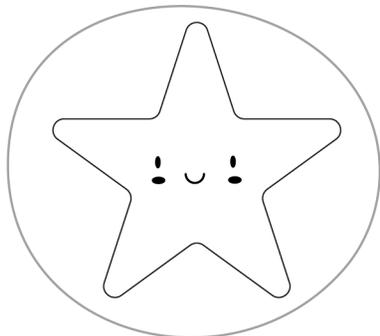

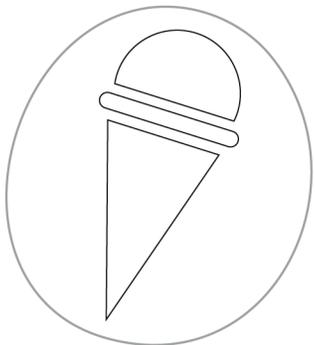

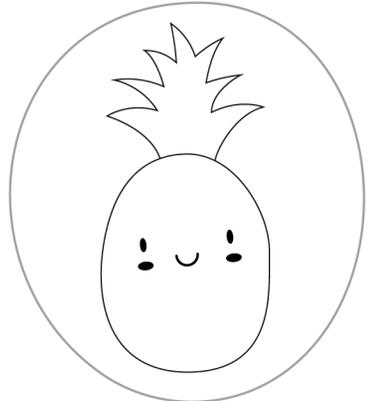

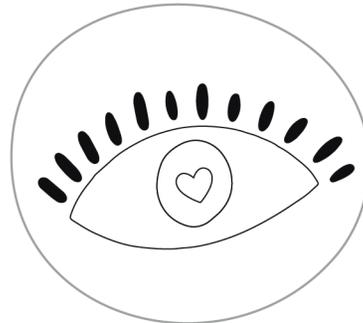

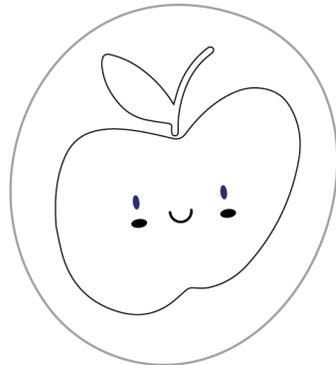

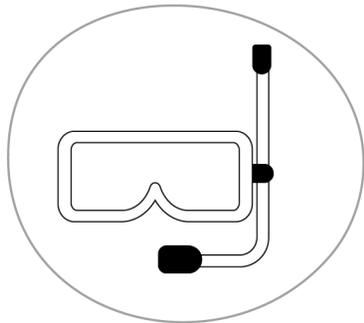

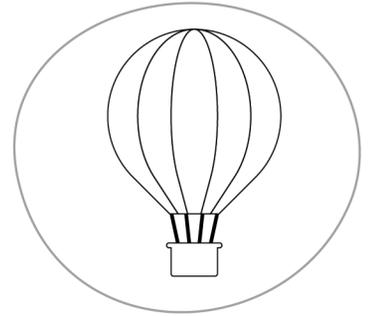

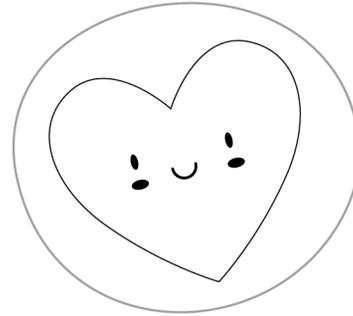

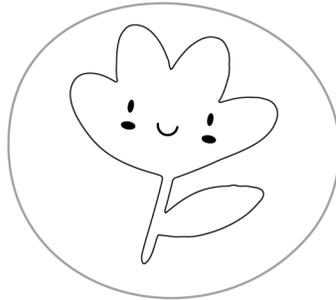

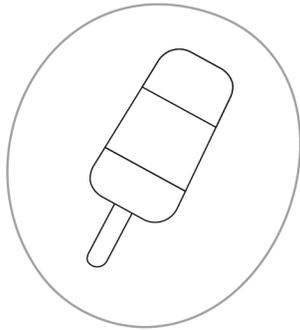

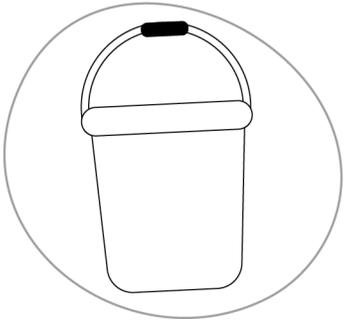

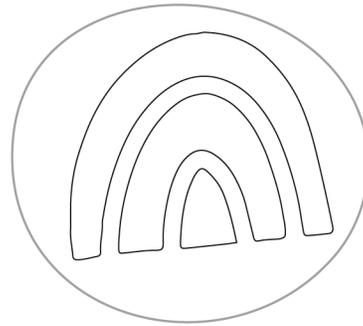

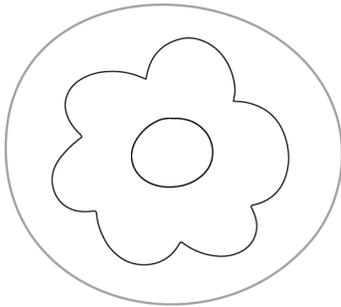

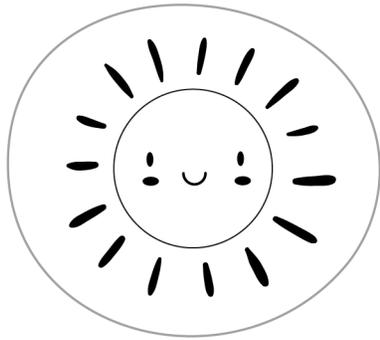

Coller la bandelette la plus courte sur le dessus de la carte.

Coller la fleur de remerciement sur la bandelette pour faire du relief.
